

CCNA CHEAT SHEET

OSPF Costs

OSPF is like shopping. When buying the same product, the cheaper the cost the better the deal. The lower the cost the better the route

Cost of apple

Shop 1 = £10 per Kg

Shop 2 = £1 per Kg

Shop 3 = £100 per Kg

Shop 2 is the best place to buy apples

*Not an accurate representation of the cost of apples

Cost to 192.168.0.0/24

Route 1 = [110/10] to destination

Route 2 = [110/1] to destination

Route 3 = [110/100] to destination

Route 2 is the best path to destination
